Claims 1-15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The terminology "Crystalline fludarabine-phosphate" is not disclosed or suggested by the specification as originally filed. It is noted that on page 3 of the specification it is stated that "alkali and alkaline-earth salts of fludarabine-phosphate can be produced as stable, crystalline and readily characterizable substances". However, the present claims are not limited to alkali and alkaline-earth salts and the specification does not disclose crystalline fludarabine-phosphate.

Claims 4-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Montgomery et al (U.S. Patent No. 4,357,324) or Blumbergs et al (U.S. Patent No. 5,110,919) for the reasons set forth in the Office Action of July 5, 2005.

Applicant's arguments filed April 5, 2006 have been fully considered but they are not persuasive.

Applicant contends that the declaration presented establishes that the Montgomery process as carried out in its Example II does not produce a fludarabine phosphate product meeting the purity requirements of the claims. Applicant's arguments and the Declaration have been considered but have not been found persuasive. The declaration states that "a highly pure fludarabine phosphate could be obtained in a liquid solution " having purity of more than 99.5%. Applicant contends that

Art Unit: 1623

when the prior art crystals were reconstituted in water, the purity was less than 99.5%. However, the declaration fails to show that the purity of prior art crystals before reconstitution with water is substantially less than 99.5%. Therefore, the above stated rejection has not been overcome.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
